*Asiatic cholera in Turkey.*

A telegram from Constantinople states that Asiatic cholera has broken out at Baku and that all persons arriving from Batum are submitted to a medical visit.

## MEXICO.

*Reports from Monterey—Sanitary conditions.*

Passed Assistant Surgeon Goldberger reports, August 17, as follows:

The sanitary situation in Monterey and vicinity during the week ended August 13, 1904, continued much as at the date of my last report.

In the city of Monterey there appears to be a slight increase in the amount of sickness as shown by an increase in the number of deaths recorded. The total number of deaths recorded during the week under consideration was 59. Diseases of the gastrointestinal tract, principally of children, continue to retain their prominence as the chief cause of death.

Acting Assistant Surgeon Ferguson reports, August 16 and 19, through Passed Assistant Surgeon Goldberger, as follows:

Nothing of sanitary interest has come to my notice for the week ended August 13.

I leave to-night to make inspection of Monclova and vicinity.
